

AP360

Electrostatic Air Purifier

Energy Consumption

AP-360	Power (W)	Monthly energy Cost continuously ON at \$0.12/Kwh
Standby	1.5	\$0.13
Quiet	3.5	\$0.30
Low	5.2	\$0.45
Medium	7.5	\$0.65
High	13.6	\$1.18

Note:

1. Standby is the power consumed by the unit when it is not turned on but the adapter is plugged onto the AC outlet.
2. The monthly energy cost are calculated based on the average electricity price of \$0.12/Kwh in California. In other states, this may be higher or lower.
